Proposed Rate Increase

ORIGINAL

Mr. Newman -

As a resident of Sun City and a Condo Board member I am writing to object to the proposed rate increase for water and wastewater treatment. Those of us that live in Sun City are being unfairly treated. This community has not grown in the past 30 years and will not grow in the future. So there is no increase cost for infrastructure or treatment facilities. We should NOT be bundled with other areas that have caused growth problems.

Please treat us fairly.
